(Denis Kalupin: [Denis.Kalupin@EURO-fusion.org](mailto:Denis.Kalupin@EURO-fusion.org)).

Request approval	Place and Date	Signature
* by PMU Coordination Officer		

## Terms and Conditions for Gateway access and use:

As Gateway account holder of any of the above categories:

- I acknowledge and accept that the setting up of my gateway account does not constitute a (legal) right of access and use of the software and codes stored therein. Access rights to use the software/codes are subject to either the acceptance of a licence agreement attached to the software, applicable cooperation agreements or the granting of access rights by the owner following my written request pursuant to the EUROfusion Consortium Agreement and/or EUROfusion Grant Agreement;
- I am aware that for some software additional requirements may apply if so explicitly stated;
- I will not install or run any software on the Gateway computing cluster which cannot be directly attributed to my role as a **user** or **external**;
- By uploading content to the Gateway, I affirm that such content complies with all applicable laws and license conditions (if any) and I shall hold the Gateway operator free and harmless from any related liability.
- I accept that all content of the Gateway is provided “as is” and I shall hold the Gateway operator and any content provider free and harmless from any related liability in connection with my use of such content.
- I understand that access to the Gateway is granted through individual accounts which must not be transferred or shared.
- I have understood and accepted that I have to re-apply for a gateway user account, if my employer changes.
- I have understood and accepted that I have to inform the PMU Coordination Officer if my involvement in EUROfusion activities ends.
- Access rights to the Gateway computing cluster may be revoked if a user is found to be in breach of the terms of the user agreement as set out in this document.
